

European Bank
for Reconstruction and Development

Procurement opportunities:

The European Bank for Reconstruction and Development (EBRD) is providing a sovereign loan to the Republic of Serbia for the benefit of Serbian Railways Infrastructure JSC to finance the rehabilitation and upgrade of the rail infrastructure of Rail Corridor X the railway line connecting Belgrade to Nis with the aim to increase the speed of the section to up to 200 km/hour, while enhancing quality of passenger and freight services.

The project also includes the EBRD technical assistance support for operational and capacity improvements at the company level. Therefore the EBRD is opening a procurement call for the implementation of a Corporate Development Programme and a Corporate Governance Action Plan (the two opportunities will be advertised and contracted separately).

Opportunity #1: Serbian Railways Infrastructure: Corporate Development Programme

EBRD is looking for a consultancy firm to implement an 18 months Technical Assistance project aimed at supporting the commercial and operational development of Serbian Railways Infrastructure.

The total budget for this procurement opportunity is up to EUR 400,000.00.

The procurement opportunity will be open until June-12-2023, 6pm CET.
